

From: Julie U.

My name is Julie, I am 50 years young, from the state of Missouri. I have been using DMAE 3% gel for about 11/2 years now. I first heard about your product from a newsletter (Total Wellness) by Dr. Sherry Rogers. She gives so many wonderful suggestions on products that are wonderful and very healthy to use. She sure was correct about this product DMAE. I have always been concerned about getting bad wrinkles under my eyes and have used many other products. I use DMAE every morning and evening under my moisturizer. You can see the change yourself everyday you put it on. I know I could pass for being 10 years younger than I really am. I have a sister who is 9 years younger than I and people always think I am younger than her. I wouldn't dream of going 1 day without my DMAE gel. DMAE gel is everything it says it is and is very economical to use. You have a customer for life.

Dear INP marketing team,

I am 45years old. I have been using DMAE 3% gel under my eyes and on my neck area for about 6 months now. It seems to reduce puffines under the eyes and improve the firmness of the neck. I think it's a great product. I would like to see more info on how it works though. Your web says it is involved with muscle contructions. Could you be more specific?

Thank you very much,

Anna M., California.

Hello,

I've been using the DMAE 3% Gel for a little over a year now. I've noticed an improvement in the appearance of wrinkles caused by overexposure to the sun. Additionally, the texture of my skin around the eyes seems to be much smoother. I apply the gel morning and night along with a squalene-based moisturizer. This is also a wonderful way to protect the skin during the dry winter months.
