Subject: testimonial

I have been using Intensive Nutrition's topical DMAE solution for a few months now and have noticed a significant improvement in the firmness of my skin. I am an esthetician and I retail the product to my clients who have all experienced the same fantastic results. Because I am concerned with the ingredients that I put on my skin, and recommend to others, I appreciate that Intensive Nutrition does not use added "fillers" to their products. What you get is pure active ingredients that work. - Deborah Lee, Matthews, NC
